

The Modular Commune is back November 13-16, 2025

Dear Ladies and Gentlemen, brothers and sisters, comrades and friends,
The Modular Commune is returning with an international festival in 2025! It will take place in 798 Art District, Beijing on November 13-16.

The festival will be held in a 3600m² space fully packed with programs including dedicated areas for Expo, Modular Live, Ambient Live, Dolby Atmos, Master Classes, DIY- and other workshops and seminars, Kids Discovery Zone, Novice Village, Afterparties, Artists' Market, and more!

We have also put together some stats from Modular Commune Festival 2024: 20,000 visitors, 100 live performances, 50 exhibitors, 38 workshops, 9 hours of DIY workshops, 5 afterparties, and total of 1 module burned!

The Modular Commune is Asia's largest trade show and performance event for modular synths and other electronic music instruments. It is a non-profit event made possible by passionate volunteers from across and beyond the industry. Modular Commune has been held since 2015 and the first international iteration was held in 2024. It is a platform for exchanging ideas, for showcasing new sounds and products, for making new connections and to engage with musicians showing their work live.
